

Dec 14 2006

In the Matter of: RM-11347

I respectfully OPPOSE the petition made by Glen Zook on May 10, 2006 to change 47 CFR Part 97 Section 97.119.

The changes Zook proposes are not minor, and would lead to an onerous burden, discouraging innovation by amateur operators and discouraging new operators from getting "on-air."

The existing regulations in 97.119 are more than adequate for ensuring amateur operators take ownership of and responsibility for their transmissions.
